Summary of Qualifications	Applied Informatics student at Slovak University of Technology in Bratislava, Faculty of Electrical Engineering and Information Technology, growing as a junior full-stack developer focused on modern web applications, clear client–server architecture, and clean RESTful API integration. Conveniently convert requirements into reliable functions while maintaining code readability and structure. Looking for a team that builds real products, values engineering discipline, and encourages continuous improvement. My goal is to contribute to shipping user-facing functionality while expanding my skills through new tools, patterns, and collaborative development practices.
Skills	Technology stack: Python, Java, JavaScript, TypeScript, C#. Frameworks: Django, DRF, React, Node.js, Express.js, Angular. Databases: SQL (PostgreSQL, MySQL, SQLite), NoSQL (MongoDB). Testing, Tools and Version Control: Git, GitHub, GitLab, Docker, Postman, unittest.
Languages	English – B2, Slovak – B2 , Ukrainian – C2, German – A1
Experience / IT related educational practice	**E-Learning Platform**(React, Django) for programming languages: September 2025 – Present Developing a full-stack e-learning platform (React, Django REST Framework, PostgreSQL, and OAuth 2.0) with course enrollment, different types of test questions and timed/untimed quizzes. Responsibilities include role-based access for student/teacher workflows, progress and attempt history tracking, media uploads and profile/UI customization. **Insurance Company** (Java, OOP) April 2025 – May 2025 Designed and implemented a Java-based insurance company domain model as a university course project, applying OOP principles and TDD with unit tests.
Education	Slovak University of Technology in Bratislava(STU), Faculty of Electrical Engineering and Information Technology (FEI) — BSc studies in Applied Informatics — 2023–2026 Bratislava, Slovakia
Additional education	Frontend Developer, Python Developer, Databases with SQL and Python, Introduction to Django. Currently learning: Full Stack Web Development with MERN and Angular – The Complete Guide.
Hobbies	Programming: interested in blockchain and Web3. Sport: disciplined trainings in gym. Math: calculus, abstract algebra.
